

With an unparalleled choice of over 20 distinctive venues, Sydney Showground is the perfect location for an event of any size.

The halls are perfect for medium to major exhibitions. However, they've been designed to be flexible so they can also be used for corporate functions and conferences. The halls can be hired individually with dividing operable walls or opened jointly to create a spectacular square framework of clear span space with high ceilings. Logistics are a breeze with excellent loading dock access.
